Market Holds Its Own in Narrow Price Range.

FOREIGN TRADE HAS GROWTH Atch.

Resting Spell in All Lines of Speculation and Tendency of Money Rates Is Essier-Crop Outlook for the Coming Season Is Distinctly Above the Average.

Foreign Trade Good.

There is very little doubt that a deep impression has been made in financial circles by the extremely favorable showing of the country's foreign trade for the eight months of the fiscal year to date. An excess of exports over imports in this period of \$418,000,000 holds out a promise f a general foreign trade balance for the fiscal year as a whole worthy to be reckoned among the most gratifying statements of the kind on record.

It was really a sort of resting spell to-day in all markets and price changes were as small on the cotton and produce exchanges as in securities. Although the Eastern to the Western sections in connection with spring planting operations is now in full progress, the tendency of money rates here to-day was to decline and this was matched by an easier trend if anything abroad.

Business Prospects Better.

ames J. Hill's statement as to conditions in the Northwest was much more optimistic than his last outgiving on the same subject and, taken along with a similar statement made by Judge Lovett, of the Union Pacific, seemed to afford little basis for any lugubriousness whatever regarding business prospects.

There is no doubt that the reaction in trade which was at its height in the East a few months ago is now centered over the West and is emphasized very naturally by the decline that has taken place in forn and other commodities prices. But this does not alter in any way that fact that all business in the Western part of the country is, however considered, in a state of great prosperity. Amer. COTTON MARKET.

Quotations furnished by W. B. Hibbs & Co., mem-

Now York, March 15.-The cotton market was very irregular to-day. An early decline, induced by no particular cause that could be discovered, was followed by a rather sharp upturn. This was the result of stronger cables and an advance in Liverpool after the New York opening. Private cables explained that Continental operators only heard of Neill's crop estimate to-day, which had been mailed from Liverpool the day previous. There were also dry weather reports from the cotton belt, and lower retirence for the Census Europu's report to be interesting for the Census Europu's report to be interesting for the Census Europu's report to be interesting for the Census Europu's report to be interested for sestimates for the Census Bureau's report to be issued Monday.

The Safest Investments Are those that do not fluctuate during disturbed conditions of the money or stock mar-kets. First deed of trust notes (first mort-gages), well secured on real estate in the District of Columbia, constitute "gilt-edge" investments. They do not depend upon the financial responsibility of individuals or cor-porations for their stability, and are exempt from taxation as personal property. We can supply such investments in amounts from \$500 upward. Send for booklet, "Concerning
